Python package · src/prusie
susie
individual.py · X and y
susie_suff_stat
suff_stat.py · XtX, Xty, yty, n
susie_rss
rss.py · z or bhat/shat, R
susie_rss_lambda
rss_lambda.py · z, R, λ
Design preparation
column means and scales · XTy
RSS preparation
working statistics · LD checks
λ preparation
estimate λ · eigen checks
_prepare_request
_request.py · identifiers · maf filter · null column · prior weights · scales · native options → _FitRequest
input checks
_fit
workhorse.py · choose the route · call the solver · build SusieResult
dynamic RSS models
fit_dynamic
rss_models.py · sweeps
refine_fit → _run
refinement.py · warm refits
marginal_pip
credible_sets
posterior.py · PIP and CS
Binding · rust/prusie-python
validate_*
finite · diagonal · symmetry
repair · preparation
fit
NumPy views and layout
options → typed Rust
fit_design_*
dense · CSC · trend
designs
cs_pairwise_abs
credible-set purity
early rejection
ser_update
one single-effect
update
Solver · rust/prusie-core
fit_controlled
ibss.rs · checks, implicit
scaling → DenseGram
Design
design.rs · matrix-free
XT(Xv), trend operator
ser_update
ser.rs · standalone SER
fit_operator
ibss.rs · sweeps; effects ℓ = 1, …, L updated in order
stopping_decision
diagnostics.rs · tolerance,
cycles, NaN fallback
ER2, KL and ELBO
residual.rs · ibss.rs
stored products
GramOperator::apply
operator.rs · dense kernel,
exact classes, Design
minimize
optimizer.rs · Brent
search for V
single_effect
ser.rs · Bayes factors,
posterior moments
